Welcome remark

- 1 A short history of J-SLARF
- 2 This year's event

Who are we?

J-SLARF is an online community promoting cutting-edge second language research.

Face-to-face events in the past...

An **open community** where second language researchers and practitioners meet and share our ideas.

The 1st JSLARF
in 2017 (Tokyo)

The 2nd JSLARF
in 2018 (Osaka)

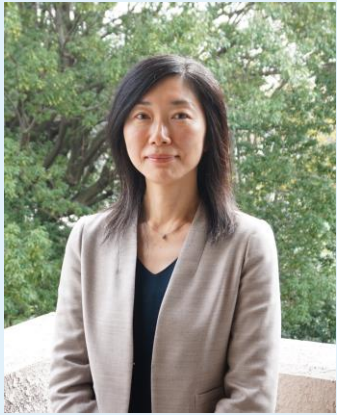

During the pandemic

The 3rd JSLARF in 2020

500
participants

13 Guest Speakers

Online event is great, but...

Limited opportunities for **spontaneous and unexpected** interactions among organizers, guest speakers, and participants.

We really miss in-person J-SLARF events in 2017-2018
